

MEDI Barcelona, Spain VIS15

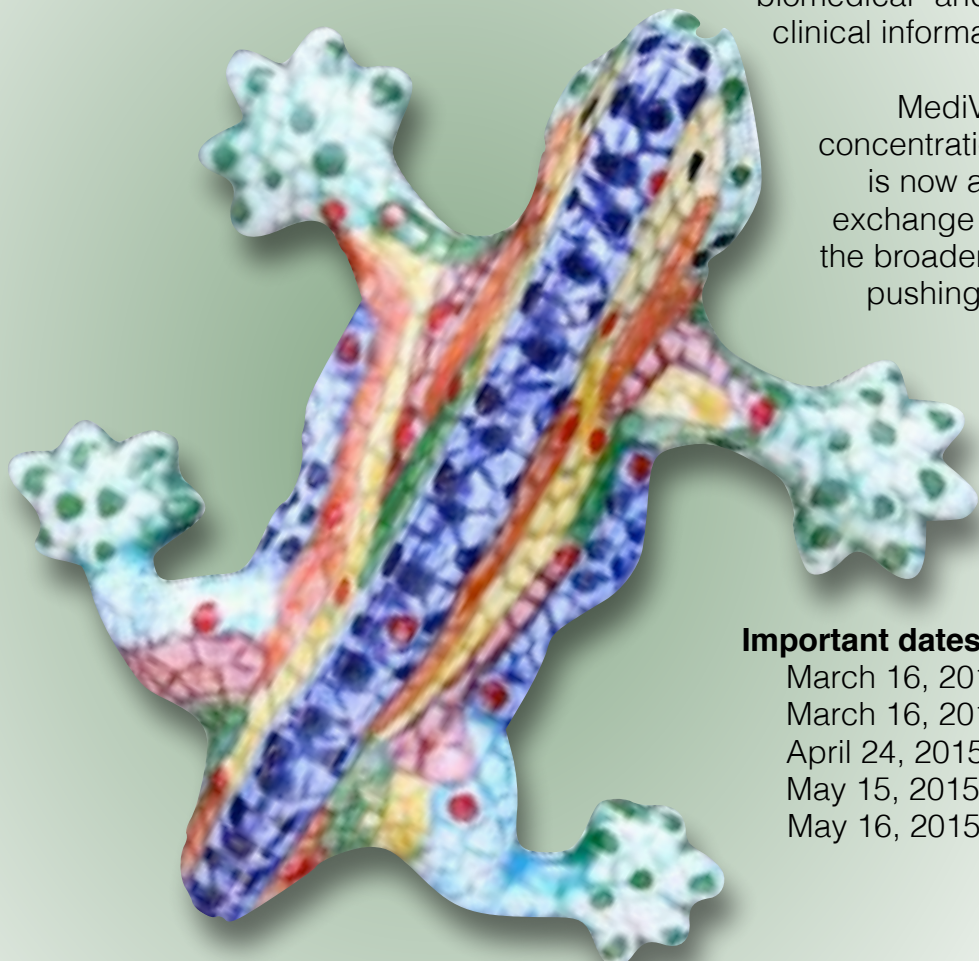

July 21-24, 2015

You are cordially invited to submit a paper and participate in a section of the 12th International Conference on BioMedical Visualization (MediVis 2015). MediVis will be one of the events of the 19th International Conference on Information Visualization 2015 to be held in Barcelona, Spain.

MediVis is a forum for the presentation of original papers in the theory and applications of visualization to biomedical and medical data. The symposium covers all aspects of visualization, visual analytics and issues affecting human-computer interaction with big data from the biomedical and medical fields. We encourage the submission of papers covering novel techniques, old techniques applied in novel ways, new methods, interesting applications and in-depth surveys. Anything related to biomedical and medical fields as well as HCI in clinical informatics is of interest.

MediVis has evolved rapidly from its original concentration purely on medical visualization and is now a leading interdisciplinary forum for the exchange of ideas and results on visualization in the broader interdisciplinary biomedical sciences pushing forward the boundaries of biomedical sciences and modern medicine.

**See you in Barcelona!
Nos vemos en Barcelona!**

Important dates

March 16, 2015 Submission of full papers
March 16, 2015 Submission of short papers
April 24, 2015 Notification of review results
May 15, 2015 Submission of poster abstracts
May 16, 2015 Submission of camera-ready papers

Organizers

Dr. Urška Cvek, USA
Dr. Lin Feng, Singapore
Dr. Georges Grinstein, USA
Dr. Heimo Müller, Austria
Dr. Marjan Trutschl, USA
