RESEARCHERS LINK:

AI/Visualisation-Centric interdisciplinary Research Project Proposal Workshop for addressing 2030 UN Sustainable Development Goals.

Under the Researcher Links scheme, the IV-forum is hosting a unique workshop on the central theme of AI/Visualisation for accelerating the 2030 UN Sustainable Development Goals (https://sdgs.un.org/goals). This event, to be held in Darmstadt, Germany, on 5 June 2025, offers a rare opportunity for career researchers to significantly contribute to the UN 2030 Agenda for Sustainable Development Goals through cutting-edge technology. The workshop, coordinated globally by leading researchers, aims to design a series of research proposals suitable for funding during the conference. If you want to join the project team, please register your interest https://iv.csites.fct.unl.pt/de/symposia/researcherslink/, Alternatively, contact organisers at: iV_CGiV@graphicslink.co.uk .
